(Mouton, 1966) and *A Piano for Mrs. Cimino* (Prentice Hall, 1980)

## INTRODUCTION

Strictly speaking, this is simply a list of technical terms: 30,680 of them presented in an alphabetical sequence of 52 professional subject fields ranging from Aeronautics to Zoology. Practically considered, though, every item on the list can be quickly accessed in the Random House Webster's Unabridged Dictionary (RHU), updated second edition of 2007, or in its CD – ROM WordGenius® version. So what's here is actually an in-depth learning tool for mastering the basic vocabularies of what today can fairly be called American-Pronunciation Internationalist High Tech Latinate English.

**Dictionary authority.** . . . This list, by virtue of its dictionary link, has far more authority than a conventional professional-subject glossary, even the one offered online by the University of Maryland Medical Center. American dictionaries, after all, have always assigned their technical terms to professional experts in specific fields, identified those experts in print, and in effect held them responsible for the accuracy and comprehensiveness of each entry. Even more important, the entries themselves offer learners a complete sketch of each target word (headword).

**Memorization.** . . . For professionals, memorization is a basic career requirement. Any physician will tell you how much of it is called for in medical school and how hard it is, thanks to thousands of strange, exotic shapes like <myocardium> that have to be taken apart in the mind and reassembled like pieces of an unpronounceable jigsaw puzzle. Hence the need for multiple memory-friendly clues. Pronunciation, etymology, definitions, root elements (including cross references) — these features ensure that each target word visited has a far greater chance of sticking in a learner's mind than does a bare bone headword-definition glossary entry

**Testing.** . . . Diplomas and degrees are still important in a career-mobility world economy. But so, more and more, is the need for high stakes tests as tools for validating and revalidating academic achievement, many of which emphasize the kind of high tech vocabulary power represented by a dictionary-based question like, "Please identify (via spoken or written spelling) the 10-letter word represented by the phonetic transcription /muy' euh kahr"dee eum/ and the dictionary definition <the muscular substance of the heart>."

Practically considered, this list represents 30,680 high-powered spelling bee questions like this, along with the same number of pronunciation questions like, "Please indicate which syllable (1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup>, or none of these) gets the primary stress in the dictionary entry for <myocardium>" or "Please produce a dictionary-accurate phonetic transcription for <anemia>."

**Range and importance.** . . . Professionally considered, what's here is far more representative than comprehensive; the 28<sup>th</sup> edition of Steadman's Medical Dictionary, for instance contains 107,000 entries, noting that 80% of them contain one or more Latinate English root elements out of a relatively small pool of 1,200. By way of indicating the relative professional importance of our 52 fields, here they are, ranked by the number of entries for each in RHU. They range from 3,389 entries down to 73, with an average size of 590.

**RHU subject-fields and their number of entries.** . . . chemistry3389/ pathology2113/ law2109/ music 1434/ botany1324/ mathematics1289/ physics 1289/ nautical1252/ anatomy1138/ biology1011/

**Independent learning.** . . . From autodidacts like Franklin and Lincoln on down to an aspiring medical student in Ethiopia, wise learners have always stayed clear of taking on discouraging challenges like, say, all 944 of our medical terms. By way of encouraging contrast, here's a procedure that worked quite well in the early stages of this project.

- 1) Define a preliminary subgroup.... Nine-letter words like <myelogram> tend to have only one definition, as opposed to shorter words like <active>, which has 22 separate definitions listed and numbered, of which only number 14, "acting quickly, producing immediate effects," is identified in italics with the abbreviation <Med.>, for "medicine."
- 2) Eliminate target words that don't appear in your family's desk size dictionary (1000-1500 pp.). This step reduced the first-step list of 65 to 35, and the checking process produced a high level of target familiarization.
- 3) Check each target word's four clues (pronunciation, etymology, definition, and cross referenced root elements) as quickly as possible. This took two sessions totaling 35 minutes — one minute per target word.
- 4) Take a spelling bee-style test using a desk dictionary in the hands of a friend or family member and be satisfied with a 70% success rate. . . . With only one minute per word of actual study time, almost every learner's success rate is bound to be surprisingly high and encouraging — enough so to inspire further effort and test-taking success.
- 5) Continue to challenge yourself and check your progress. . . . Dictionary based tests, just like counting calories consumed via a stationary bicycle, will keep you honest. But your morale will climb if you measure yourself via conventional vocabulary tests like those offered by preparation manuals (available in libraries and bookstores, for our major pre-professional tests, GMAT, GRE, LSAT, and MCAT. More informally, you can try reading general-interest books in your chosen field and see how much sense they make to you personally, since preexisting vocabulary power has always been a major factor in determining how fast we read — and how retentively.

**TO CONCLUDE.** . . . As indicated at the outset this access dictionary is just a door opener, not the main show, which is the English vocabulary itself: its pronunciation system, its spelling system, its root elements, and the logic of its multiple meaning system. By way of underscoring the point, simply imagine a friend asking you what's so important about the English vocabulary (EV), in which case here are seven points you might make — even to a group of third-graders.

The EV is Etymological. . . . This is to say that nearly all of our words can be traced back to an original source, just like a family tree, including their relationships to words in other languages (cognate cousins, we might call them).

The EV is Normative. . . . It's true that every family has its own language in a sense (nicknames, bathroom functions, etc.), and so does every neighborhood and geographical region. But a dictionary like the RHU is meant to hold a nation together by setting standards or norms, for spelling, for pronunciation (e.g., TV announcers), and even for word-meanings (e.g., its use in legal proceedings).

The EV is Gigantic. . . . Matched against even a desk-size dictionary (70,000 word entries), our personal best vocabularies are relatively small: 15,000 for high school graduates going on up to possibly as high as 30,000. But overall the contents of our unabridged dictionaries are the largest on the planet: over twice the size of German or French, for example.

The EV is Latinate. . . . Even in a desk-size dictionary 80% of the headwords are explicitly designated, directly or indirectly, as coming into the language from Latinate sources: French, Italian, Spanish, and renaissance Graeco-Latin. Only 10% go back to the "old English" of before 1066 A.D. (the Norman conquest). The remaining 10% come from languages of northern Europe, especially Norse and Dutch, and from other contributors: American Indian, Asian, Arabic, African, etc. In unabridged dictionaries, including Merriam Webster and the Oxford, the Latinate element can be fairly estimated as 90%.

The EV is International. . . . Time Almanac 2007 lists 41 nations in which English is explicitly identified as an official language, 24 where it is the first alternative language listed, and 26 where it is listed as one of two or more acceptable alternatives (the United States and the United Kingdom are in this category). These figures mean that right now over three billion human beings live in nations where English is spoken, taken seriously, and studied.

The EV is Scientific. . . . Culturally considered, the roughly 5,000 separate languages on our planet are all equal. But for publishing the results of original scientific research, as Charles ("diglossia") Ferguson and others have noted, less than ten fall into this category, the most frequently used is English — especially with American-style pronunciation.

The EV is Hard-to-Learn. . . . While English grammar and pronunciation are no more difficult than those of Tagalog, Chinese, or Swahili, our Latinate English component is a memorization nightmare for every student, American or foreign-born, on Planet Earth. Practically considered, this means that our professional vocabularies are EQUALLY difficult and thus equally accessible for everybody, not just a favored few. Simply put, most of us can't do much about our appearance or athletic talent, but we can all improve our vocabulary power — and feel proud of ourselves in the process

Etymological, Normative, Gigantic, Latinate, International, Scientific, and Hard-to-Learn — put together (as most readers and listeners usually guess about halfway through) the initial letters of these seven key features spell E-N-G-L-I-S-H. . . . Here's hoping this 7-point speech outline sticks in your memory, along with the personal-growth target words you decide to access via the following dictionary-based list.

**An access-list of 30,680 technical terms.**

NOTE. . . . RHU entries for the following headwords identify their technical definitions via italics, e.g., *Aero*. (for “aeronautics”) or *Aerospace*. In a few instances, italics are not used, e.g., using the field-indentification word as part of a term’s definition. Homographs (different words who share the same spelling) are distinguished by superscript numerals.

AERONAUTICS	bulkhead	GCA	pushover
abeam	bump	glide	pylon
absolute altitude	bungee	glide slope	radial engine
absolute ceiling	burble	ground1	rake3
aerodynamic wave drag	buzz1	ground-controlled approach	rate-of-climb indicator
aeroelastic	cabane	ground loop	reaction engine
aeroelastics	camber	groundplot	reheating
aeromarine	canard	guide rope	resojet engine
aeropause	cantilever	gyro horizon	ride
aerosphere	ceiling	gyropilot	rigger
aerostation	cell1	hatch2	rigid
aft1	chandelle	heading	robot pilot
after	chord1	hole	roll-off
afterbody	climb indicator	horizontal stabilizer	rotary wing
afterburner	combustor	horn	rotor
afterburning	controller	hull2	rotor blade
aileron	control stick	IAS	rudder
aileron roll	corridor	ILS	ruddevator
airborne	crab1	inclinometer	run
air brake	crabbing	induced drag	sausage
airfoil	cradle	ingest	scramjet
airline	crash1	innage	seadrome
air log	critical angle	inside loop	semirigid
air plot	crow’s-foot	interference	servocontrol
airspeed indicator	cub	interference drag	sesquiplane
altitude chamber	dead-stick landing	jet wash	shoot1
angle of attack	deceleron	landing tee	shroud
angle of climb	dihedral	leading edge	skid fin
angle of pitch	distrail	leeway	skin friction drag
angle of roll	dive	let1	skiplane
angle of stall	dive brake	letdown	slat1
angle of yaw	dope	level	slip1
anti-G suit	downwash	level-off	slipstream
antitorque rotor	drag	lift	slot1
appendix	drift	lift-drag ratio	snap roll
approach light	drift indicator	liftoff	snap-roll
artificial horizon	drogue	lighter-than-air	span1
ASI	earth inductor compass	Link trainer	span loading
aspect ratio	elevator	loading	spar1
attitude	elevon	longeron	spin
automatic pilot	face	loop1	spinner
autorotation	feather	machmeter	spiral
axis1	FIDO	outage	split flap
back1	fin1	outside loop	spoiler
backswept	fineness ratio	panel	sponson
backwash	flame-out	parasite drag	spread
ballast	flap	peel1	stability
bank1	flaperon	permeability	stabilize
bank-and-turn indicator	flatten	pilot	stabilizer
bank indicator	Flettner control	pitch1	stagger
barrel roll	flight deck	Pitot-static tube	stall1
barrel-roll	flight indicator	plane1	stalling angle
bay2	flight strip	power dive	stator
beam	float	power-dive	statoscope
belly-land	floatplane	power loading	stick1
black box	flyby	pressure cabin	strip2
blowout	flying field	propeller wash	surface
body	flying wing	propfan	sweep1
bomb bay	Fowler flap	propjet	sweepback
boom2	Frise aileron	pulsejet engine	sweptback
boom3	fuselage	push-down	sweptwing
	gap	pusher	swing1

tab1	EMU	Viking	articulate
tail1	enterprise	window	articulated joint
tail plane	EVA		articulation
tail skid	explorer		aryepiglottic
taxi strip	extravehicular	ANATOMY	arytenoid
thermal barrier	footprint	abdomen	ascending colon
three-point landing	G	abducens nerve	association fiber
tractor	Galileo	aboral	asternal
traffic pattern	heat barrier	accelerator	atlantal
trailing edge	heat shield	accessorius	atlas
transonic	Hubble Space Telescope	accessory	atrioventricular
trim	IAMAW	accessory nerve	atrioventricular bundle
trimming tab	inertial guidance	acetabulum	atrioventricular node
trim tab	injection	Achilles tendon	atrium
turbo-propeller engine	insertion	acinus	attic
turboshaft	kosmos	acromion	auditory
turn-and-bank indicator	launch vehicle	-ad3	auditory canal
turn indicator	lunar excursion module	adenohypophysis	auditory nerve
undershoot	lunar module	adnexa	auricle
variable-pitch	Lunar Orbiter	adrenal gland	auricular
variometer	lunar rover	adventitia	auriculoventricular
vector	mariner	air cell	axial skeleton
vertical stabilizer	mercury	alar	axilemma
V/STOL	midcourse	alimentary canal	axilla
VTO	mission	alveolar	axillary
VTOL	mission control	ameloblast	axis1
warp	mission specialist	amnion	backbone
wash	nimbus	amniotic	ball-and-socket joint
washin	nominal	amniotic fluid	band2
washout	OAO	amphiarthrosis	Bartholin's gland
whipstall	OGO	amphicelous	basal disk
windmill	orbiter	ampulla	basal ganglion
wind tunnel	OSO	ampullula	basilar membrane
wing	PAM	amygdala	basilic vein
winglet	parawing	amygdaloid	basophil
wing loading	park	anapophysis	belly
wingover	parking orbit	anastomose	biauricular
wing skid	payload	anastomosis	biceps
wobble pump	phugoid	anatine	bicipital
yawmeter	pioneer	ankylosis	bile duct
	pressure suit	annular ligament	bladder
AEROSPACE	pressurized suit	anteorbital	blind spot
ablation	probe	anterior pituitary	body
ablator	relay1	anteroparietal	bone
active	roll	antihelix	bony labyrinth
aero.	satelloid	antitragus	bowel
aeronautical engineering.	separation	antrum	Bowman's capsule
aerospace	service module	anus	brachial
anti-G suit	Skunk Works	anvil	brachial plexus
Apollo	soft	aorta	brachiocephalic artery
apolune	solar sail	aortic valve	brachiocephalic vein
Ariel	space capsule	aponeurosis	brachium
astronautical engineering.	space probe	apophysis	brain
blastoff	Space Telescope	appendage	brain cell
capsule	surveyor	appendix	breast
challenger	swing by	approximal	bridge1
characteristic velocity	synchronous	aqueduct	Broca's area
Columbia	Syncom	aqueduct of Sylvius	bronchi
command module	thruster	aqueous humor	bronchia
corridor	Tiros	arachnoid	bronchial
cosmodrome	Tracking and Data Relay	arborization	bronchiole
cosmos	Satellite	arbor vitae	bronchus
dead-stick landing	transit	arborvitae	brow
decay	translunar	area	browridge
deorbit	UAW	arterial	brush border
discoverer	umbilical cord	arteriole	buccal
discovery	undock	arteriovenous	buccinator
drift	vane	artery	buccolingual
early bird	vector	arthrodia	bud1
echo	Vela	arthrosis1	bulb

bulbourethral	clavicle	cup	epicardium
bulbourethral gland	clitoris	cystic	epicondyle
bullate	cnemis	dacryon	epicranium
bundle	cochlea	deciduate	epidermis
bundle of His	cochlear duct	decussation	epididymis
bursa	collateral	deferent	epidural
bursiform	collecting tubule	deltoid	epigastrum
calcaneus	colon2	dendrite	epiglottis
calcific	colonic	dendron	epimysium
calcification	colorectal	dentigerous	epineurium
calyx	comes	depressor	epiphysis
canaliculus	commissure	dermal	episternum
cancellate	common	dermatome	epithalamus
cancellous	common carotid artery	dermis	eponychium
canine	common iliac artery	descending colon	erectile
canthus	compressor	desmoid	erector
capillary	conchal	diaphragm	erythroblast
capitate bone	condyle	diaphysis	esophagus
caput	cone	diapophysis	ethmoid
cardia	conjunctiva	diarthrosis	Eustachian tube

carboxylic acid	citrate	crack	decarboxylate
carbonylamine	citric	creosol	decatyl alcohol
Caro's acid	Cl	resyl	dechlorinate
carrier	clarificant	crocein	decinormal
carrier-free	clathrate	cross-link	decoic acid
cascade	cleavage	cross-linker	decyl
caseinate	closed chain	crotonaldehyde	decyl alcohol
catalysis	Cm	crotonic acid	decylic acid
catalyst	Co	cryoscopy	Deet
	coacervate	crystal	deflocculate

degradation	dibromide	diphenyl	electrodeposit
degrade	dibutyl phthalate	diphenylacetylene	electrodialysis
degree of freedom	dicalcium silicate	diphenylamine	electrodissolution
dehydrochlorinate	dicarboxylic acid	diphenylaminechlorarsine	electroendosmosis
dehydrogenate	dichlorobenzene	diphenyl ketone	electroextraction
dehydrogenize	dichlorodiethyl sulfide	diphosgene	electrolysis
deionize	dichlorodifluoromethane	diphosphate	electrolyte
delphinin	dichlorodiphenyltrichloroethane	dipole	electrolytic dissociation
delphinine	ne	diprotic	electrolyze
demulsify	dichloroethane	diradical	electromotive series
denatured alcohol	dichloroethyl formal	disaccharide	electron
denitrate	dichloromethane	disinhibition	electron affinity
denitrify	dichlorophenoxyacetic acid	disodium phosphate	electronegative
densimeter	dichroism	dispersant	electro-osmosis
deoxidant	dichromate	disperse	electrophilic
deoxidize	dichromic <sup>2</sup>	disperse dye	electrophorese
deoxygenate	dichromic acid	dispersion	electrophoresis
deoxygenize	dicyandiamide	dispersoid	electropositive
depolymerize	dicyclopentadienyliron	disproportionation	electrosmosis
depressant	dicyclopentadienyl metal	dissociation	electrosynthesis
depside	didymium	dissolution	electrovalence
derivative	dieldrin	distillation column	element
derive	Diels-Alder reaction	distribute	element 104
desensitize	diene	disubstituted	element 105
desiccator	diester	disulfate	element 106
desorb	diethylacetal	disulfide	element 107
destructive distillation	diethylaminoethanol	disulfoton	elementary
desulfurate	diethylene glycol	disulfuric	elementary process
deuterate	diethyl ether	disulphate	eleoptene
deuteride	diethyl oxide	dithionate	elute
deuterium	diethyltoluamide	dithionic	Em
deuterium oxide	diffusate	dithionic acid	emanation
devitrify	digest	divalent	empirical formula
devolatilize	digest	divinylbenzene	emulsion
dextran	digest	DMDT	emulsoid
dextrin	digestor	DMN	enantiomer
dextro-	diglyceride	docosanoic	endoergic
Di	diglycol	dodecanal	endosmosis
diacetic acid	diglycolic acid	dodecanoic acid	endosulfan
diacetone alcohol	dihydrate	dodecyl aldehyde	endothermic
diacetyl	dihydric	dodecylphenol	end point
diacid	dihydroxy	double bond	-ene
diallyl sulfide	diiodomethane	double decomposition	enol
dialysis	diisobutyl phthalate	double salt	enolate
diamide	diketone	double sugar	enolize
diamine	dilatant	drop black	<sup>2</sup>
diammonium phosphate	dimer	dry distillation	entrain
diamyl sulfide	dimercaprol	Drygas	eosin
diaphragm	dimerize	Dry Ice	epichlorohydrin
diastereomer	dimethoate	Ds	epimer
diatomic	dimethoxymethane	Dy	epoxidation
diazine	dimethyl	dyad	epoxide
diazo	dimethylanthranilate	dysprosium	epoxidize
diazo-	dimethylbenzene	earth	epoxy
diazoalkane	dimethylcarbinol	EDB	Epsom salt
diazoamino	dimethylhydrazine	EDTA	equation
diazoamino group	dimethylketol	educt	equilibrium
diazo group	dimethylketone	edulcorate	equimolecular
diazole	dimethylmethane	effloresce	equivalence
diazomethane	dimethylnitrosamine	efflorescence	equivalent
diazonium	dimethyl sulfate	efflorescent	equivalent weight
diazonium compound	dimethyl sulfoxide	Einstein	Er
diazonium salt	dinitrobenzene	einsteinium	erbiun
diazotization	dinitrophenol	eka-	erucic acid
diazotize	diol	elaeptene	erythorbate
dibasic	diolefin	elastomer	erythorbic acid
dibasic potassium phosphate	diosmose	elective	erythritol
dibasic sodium phosphate	dioxane	electrochemical equivalent	Es
diborane	dioxide	electrochemical series	esculin
Dibrom	dioxin	electrocratic	eserine

ester	F	formate	hahnium
ester gum	farnesol	formic	Hal
esterify	fat-soluble	formic acid	halocarbon
Et	fatty oil.	formol	halogen
ethal	Fe	formula	halogenate
ethanal	ferbam	formula unit	haloid
ethane	fermium	formula weight	He
ethanol	ferrate	formyl	heavy
ethanolamine	ferric	formylate	helianthine B
ethene	ferric ammonium oxalate	formyl group	hemihydrate
ethephon	ferric chloride	Fr	hemiterpene
ether	ferric oxide	fraction	heptad
ethereal	ferric sodium oxalate	fractional	heptanedioic acid
etherify	ferricyanic acid	fractional distillation	heptanone
ethine	ferricyanide	fractionator	heptavalent
ethoxide	ferrite	francium	heptose
ethoxy	ferrocene	free radical	hetero
ethyl	ferrocyanic acid	freezing point	heteroaromatic
ethyl acetate	ferrocyanide	fructose	heteroatom
ethyl alcohol	ferrous	fruit sugar	heterocyclic
ethylamine	ferrous oxide	Ga	heterogeneous
ethylate	ferrous sulfate	gadolinium	heteropolar
ethylbenzene	ferrous sulfide	galactose	HETP
ethyl butyrate	ferulic acid	gallate	hexahydric
ethyl caproate	fiber	<sup>1</sup> gallic	hexahydroaniline
ethyl carbamate	fire point	gallic acid	hexahydrobenzene
ethyl cellulose	Fischer-Tropsch process	gallium	hexahydrothymol
ethyl chloride	fix	gallium arsenide	hexahydroxycyclohexane
ethyldichloroarsine	fixation	gas chromatograph	hexamethylene
ethyl enanthate	fixed	gaseous diffusion	hexanaphthene
ethylenation	fixed oil	gas liquor	hexavalent
ethylene	flashing point	gasometry	hexone
ethylenediaminetetraacetic acid	flash photolysis	Gd	Hf
ethylene dibromide	flash point	Ge	Hg
ethylene dichloride	flavine	gel	high-density polyethylene
ethylene glycol	flavone	<sup>2</sup> gelation	high polymer
ethylene group	flavonol	generator	Ho
ethylene oxide	flavopurpurin	Geneva nomenclature	holmic
ethylene series	flocculent	gentisate	holmium
ethyl ether	flocculent precipitate	geraniol	homocyclic
ethyl group	flores	germanic	homologous
ethyl hexoate	flower	germanium	homologue
ethyl malonate	fluidize	germanous	homology
ethyl mercaptan	fluoborate	Gl	homopolar
ethyl nitrate	fluoboric	glacial	homopolymer
ethyl nitrite	fluoboric acid	glucinum	humic
ethyl oenanthate	fluophosphate	gluside	hyacinthin
ethyl oxide	fluophosphoric acid	glyceride	hydrobromic
ethyl sulfide	fluorene	glycerin	hydrophilic
ethyl urethane	fluorescein	gold orange	hydrophobe
ethyne	fluorescence	gossypose	hydrophobic
ethynyl	fluoric	Graham's law of diffusion	hydroquinone
ethynylation	fluoride	gram atom	hydrosol
ethynyl group	fluorinate	gram equivalent	hydrosulfite
Eu	fluorine	gram molecule	hydrous
eucalyptol	fluorocarbon	gravimetric analysis	hylotropic
eudiometer	fluorophosphate	green cinnabar	hyperoxide
eudiometry	fluorophosphoric acid	Grignard reaction	hypertonic
euflavine	fluoroplastic	Grignard reagent	hypnone
eugenol	fluosilicate	group	hypotonic
eugenol	fluosilicic acid	guanidine	hyzone
europium	flux	H	I
eutectic	Fm	<sup>1</sup> H	-ic
exaltation	foamed metal	<sup>2</sup> H	ignite
excimer	<sup>1</sup> fog	<sup>3</sup> H	ignition point
exhaust	forked chain	Ha	Il
exoergic	formal <sup>2</sup>	hafnium	illinium
exosmosis	formaldehyde		imbibition
exothermic	formalin		imidazole
extractant			imide

imido	isoamyl group	lactam	lithium chloride
imido group	isoamyl salicylate	lactate <sup>2</sup>	lithium fluoride
imine	isobar	lactone	lithium hydroxide
imino	isobaric	ladder polymer	lithium oxide
imino group	isobutane	lanthanide	lithium stearate
iminourea	isobutylene	lanthanide series	litmus test
impermeable	isobutyl propionate	lanthanum	London forces
In	isocyanate	larixinic acid	long-chain
inactive	isocyanic acid	lateral chain	Loschmidt's number
inclusion complex	isocyanide	latex	low-density polyethylene
indamine	isocyanine	lauraldehyde	Lr
indene	isocyano	laurate	Lu
indicator	isocyano group	lauric	luminophore
indium	isocyclic	lauric acid	lunar caustic
indole	isoelectric point	lauric aldehyde	lutecium
indophenol	isoelectronic	lauroyl	lutetium
indoxy	isoionic point	lauroyl group	lycine
inert	isolate	lauryl alcohol	lyddite
inert gas	isologous	law of definite composition	lye
inhibit	isologue	law of mass action	lyocratic
inhibition	isomer	law of multiple proportion	lyolysis
inhibitor	isomerism	law of partial pressures	lyophobic
inorganic	isomerize	lawrencium	lyotropic
inoxidizable	isomorphic	LDPE	lysergic acid
insect wax	isomorphous	lead <sup>2</sup>	macrocyclic
interactant	isooctane	lead acetate	macromolecule
interesterification	iso-osmotic	lead arsenate	magma
interfacial tension	isopentyl	lead azide	magnesium
intermediate <sup>1</sup>	isophthalic acid	lead carbonate	magnesium arsenate
inulin	isoprene	lead chromate	magnesium carbonate
inversion	isoprenoid	lead dioxide	magnesium hydroxide
invert	isopropanol	lead monoxide	magnesium oxide
invert soap	isopropyl	lead tetraethyl	magnesium peroxide
Io	isopropyl alcohol	leptophos	magnesium silicate
iodate	isopropylbenzene	leuco base	magnesium sulfate
iodic	isopropyl ether	leucoline	magnesium trisilicate
iodic acid	isopropyl group	levigate	malate
iodide	isopropylideneacetone	levoglucose	maleate

 quercetin  
 quercitol  
 quinazoline  
 quinhydrone

quinic acid	reforming	1	silver fluoride
quinine	residence	salt	silver halide
quinoid	residence time	salt cake	silver iodate
quinol	residue	salting out	silver iodide
quinoline	residuum	salt of sorrel	silver nitrate
quinone	resinate	samarium	simazine
quinone diimine	resinify	santonin	simple
quinonimine	resolve	saponification number	simple sugar
quinonoid	resonance	saponify	sinalbin
quinoxaline	resorcinol	sarcosine	sinapine
quinquevalent	resorcinolphthalein	saturated	single bond
R	retardant	saturator	sinigrin
Ra	retarder	Sb	sitosterol
racemate	retene	Sc	slow-release
racemic	retinol	scandia	Sm
racemic acid	retin <sup>2</sup>	scandic	smectic
racemism	retort <sup>2</sup>	scandium	smoke
racemization	reverse osmosis	scandium oxide	Sn
radical	reversible reaction	scavenger	soda ash
radicle	revive	Schiff reagent	sodamide
radioactinium	Rh	schlieren method	sodium
radioactive	rhenic	scission	sodium amide
radioactive series	rhenum	scrub <sup>1</sup>	sodium ammonium phosphate
radioactivity	rheopexy	Se	sodium arsenite
radiocarbon	rhigolene	sebacic	sodium benzoate
radiocesium	rhodamine	sebamic acid	sodium bicarbonate
radiochemical	rhodic	secondary	sodium bichromate
radiochromatography	rhodium	secondary propyl alcohol	sodium bisulfate
radioelement	ricin	seed	sodium borate
radioiodine	ricinoleic	selenate	sodium bromide
radioiron	ricinoleic acid	selenic	sodium carbonate
radiolabel	ricinolein	selenic acid	sodium chlorate
radiolysis	ricinus oil	selenide	sodium chloride
radiophosphorus	ring <sup>1</sup>	selenious	sodium citrate
radiosodium	ring compound	selenious acid	sodium cyanide
radiostrotrium	Rn	selenite	sodium cyclamate
radiothorium	roche alum	selenium	sodium dichromate
radiotracer	Rochelle salt	selenous	sodium ethylate
radium	rosaniline	semimicroanalysis	sodium fluoroacetate
radium A	rosin	semiquinone	sodium glutamate
radium B	rotenone	semisynthetic	sodium hydrogen sulfate
radium emanation	Ru	septavalent	sodium hydrosulfite
radium F	rubidium	septivalent	sodium hydroxide
radium sulfate	rumpf	sequestration	sodium hypochlorite
radon	ruthenic	series	sodium hyposulfite
raffinate	ruthenious	sesquicarbonate	sodium iodide
Raoult's law	ruthenium	sesquioxide	sodium lactate
rape oil	rutherfordium	sesquiterpene	sodium meta-arsenite
rare earth	Sa	sexavalent	sodium metasilicate
rare-earth element	saccharate	sexivalent	sodium methylate
Rb	saccharic	Si	sodium monoxide
Rd	saccharic acid	side chain	sodium nitrate
RdAc	saccharide	signature	sodium nitrite
Re	sacchariferous	silane	sodium perborate
reactant	saccharin	silica gel	sodium peroxide
reaction	saccharolactic acid	silicate	sodium phosphate
reactivity	saccharolytic	silicic	sodium polysulfide
reactor	saccharometer	silicic acid	sodium propionate
reagent	saccharose	silicide	sodium pyroborate
receiver	sacrificial anode	silicon	sodium salicylate
rectify	safranine	silicon carbide	sodium silicate
redox	safrole	silicon dioxide	sodium sulfate
reduce	sal ammoniac	silicone	sodium sulfide
reducing agent	salicylaldehyde	silicon tetrachloride	sodium sulfite
reduction	salicylate	silicon tetrafluoride	sodium tetraborate
reduction potential	salicylic	silicon tetrahydride	sodium thiocyanate
reductor	salicylic acid	siloxane	sodium thiosulfate
reference electrode	salimeter	silver	sodium tripolyphosphate
reform	salinometer	silver bromide	softener
reformate	salometer	silver chloride

#### LINGUISTICS

accusative	complement clause	functor	locutionary
acquire	complementizer	fusion	low-level
acquisition	component	<sup>1</sup>	marked
acrolect	componential analysis	gad <sup>1</sup>	marker
adstratum	consonant shift	genealogical relationship	matrix
agglutinate	consonant system	generate	matrix sentence
agglutination	constative	generative	meaning
agglutinative	constituent structure	generative grammar	melioration
allocher	constraint	generative phonology	mesolect
allograph	contamination	generative semantics	middling
allomorph	<sup>1</sup>	generative-transformational	minimal pair
alternant	content	grammar	morph
alternate	contentive	genetic relationship	morpheme
alternation	context of situation	German	morpheme structure condition
ambiguous	contrast	glossematics	morphemics
analogy	conversational implicature	glosseme	morphology
animate	coreference	glottochronology	morphophoneme
anlaut	coreferential	glottogony	morphophonemic
anterior	coronal	Goidelic	morphophonemics
aphesis	corpus	grammaticalize	morphosyntactic
archiphoneme	cracknel	grapheme	morphotonemics
ART	creole continuum	graphemics	mutation
asterisk	culminative	graphology	neogrammarian
aughtlins	decreolize	Grassman's law	neutralization
auslaut	deep	Great Vowel Shift	node
autonomous phoneme	deep structure	Grimm's law	noncontrastive
autonomous syntax	delicacy	group	nondistinctive
AUX	demarcative	haplology	open
back formation	derivation	headlong	opposition
backlins	DET	hierarchy	overgeneralization
<sup>1</sup>	diachronic	hypercorrection	OV language
base	diachrony	hyperform	paradigmatic
basic vocabulary	dialect	hyperurbanism	paralanguage
basilect	dialect atlas	hyponym	pejoration
benefactive	dialect geography	hyponymy	pejorative
binarity	dialectology	idiolect	performance
binary opposition	discourse	ill-formed	performative
biolinguistics	discourse analysis	illocutionary	perlocutionary
biunique	discovery procedure	implicature	phoneme
biuniqueness	distinctive feature	inanimate	phonesthemic
blend	distributed	inflectional	phonetic law
Bloomfieldian	dominate	informant	phonological rule
branch	doublet	<sup>3</sup>	phonotactic
brandling	drift	-ing	phonotactics
break	emic	inlaut	phrase marker
by-form	equi	interference	phrase structure
calque	equi NP deletion	internalize	phrase-structure grammar
canonical	ergative	internal reconstruction	phrase-structure rule
case grammar	error analysis	intimate borrowing	phrase structure tree
categorial	ethnography of speaking	intuition	phylum
chamberlain	etic	isolate	polarity
chereme	expression	isolating	polar opposition
citation form	expressive	jer	pragmatics
cline	extrapose	Junggrammatiker	prime
cliticize	extraposition	karmadharaya	primitive
closed	factive	Kit-Cat Club	prosody
code	family	L1	proto-form
code-switching	family-tree theory	L2	protolanguage
cognate	focal area	language death	proxemics
coherence	form	language universal	rank scale
cohesion	formative	laryngeal	rankshift
collocate	fortition	left-branching	realize
collocation	fossilize	lenition	reconstruct
comment	free form	level	redundancy
communicative competence	free variation	lexeme	redundant
commutation	front	lexicalize	reflex
comparative method	functional	lexicon	register
compensatory lengthening	functional load	lexicostatistics	relexify
competence	functional sentence	lexis	relic area
complementary distribution	perspective	linguistic area	resumptivepronoun
		loanshift	

rewriterule	type-word	abate	Alford plea
rheme	typology	abatement	alibi
rhotacism	umlaut	abduction <sup>1</sup>	alienable
right-branching	universal	abeyance	alienate
sandhi	universal grammar	abhorrent	alienation
scope	unmarked	abolitionist	alienation of affections
secondary	utterance <sup>1</sup>	abrogate	alienee
segmental	Verner's law	absente reo	alieni juris
selection	VO language	absolute impediment	alienor
semanteme	vowel harmony	abs. re.	alimony
semantic field	vowel system	abstract of title	aliunde
semantics	VSO language	Abu Hanifa	allegation
sememe	wave theory	abuttal	allision
shaveling	well-formed	accede	allonge
shearling	zero	accessary	allowable cut
shift		accession	alluvion
shortening		accessory	always
signified	LAW	accident	ambulatory
slot <sup>1</sup>	abandon <sup>1</sup>	accretion	a mensa et thoro
sound symbolism		accrue	amicus
SOV language		accused	amicus curiae
speech act		accuser	amnesty
speech community		acknowledge	amortize
speech island		acknowledgment	Ampère's law
stock		acquainted	anarchic
stownlins		acquest	anarchist
stratum		acquiescence	anarchy
strident		acquittal	ancestor
string		act	angary
subfamily		action	angle of polarization
substance		act of God	annihilate
substratum		adat	annual report
suckling		ad damnum	anomite
superordinate		adeem	answer
superstratum		ademption	anticipation
suprasegmental		adequate	antinomial
surface		adjective	antinomy
surface structure		adjudication	a posteriori
svarabhakti		adjunct	appeal
SVO language		ad litem	appear
synchronic		administer	appearance
synchrony		administration	appellant
syntactics		administrator	appellate
syntagma		administratrix	appellate division
syntagmatic		admiralty	appellee
syntax		admiralty law.	appellor
systematic phoneme		adult	appendant
tactics		advancement	appoint
tagmeme		adverse possession	appointor
tagmemic		advisory opinion	approver
tagmemics		advocate	appurtenance
tatpurusha		advocation	a priori
taxeme		advowson	arbitrary
text		affiant	arbitration
theme		affidavit	Archimedes' principle
token		affiliate	argumentative
tone		affiliation order	arm <sup>1</sup>
topic		affirm	arrest
topicalize		affirmation	arson
trace <sup>1</sup>		affray	artificial person
transfer		age	as <sup>1</sup>
transform		age of discretion	assault
transformation		Aggadah	assault and battery
transformational rule		aggravated	asset
transition area		aggrieved	assign
tree		agreement	assignable
tree diagram		agrégé	assignable
T-rule		Akiba ben Joseph	assigned risk
type		aleatory	assignee

#### PHARMACY

Accutane	antifebrin	betamethasone	chlorpheniramine
acebutolol	antifertility	betazole	chlorpropamide
acetaminophen	antigen	bethanechol	chlortetracycline
acetanilide	antihistamine	BHA	chlorthalidone
acetanisidine	antihistaminic	BHT	Chlor-Trimeton
acetazolamide	antihypertensive	bioequivalence	cholinolytic
acetophenetidin	anti-infective	biological	cholinomimetic
acetylcholine	anti-inflammatory	Biphetamine	chorionic gonadotropin
acetylcysteine	antimanic	bitters	chrysarobin
acetylsalicylate	antimetabolite	bleomycin	chymopapain
acetylsalicylic acid	antimitotic	blue mass	cimetidine
Achromycin	antineoplastic	blue pill	cinchonidine
ACTH	antiphlogistic	bolus	cinchonine
actinomycin	antiproliferative	Bonadoxin	cineole
actinomycin D	antipruritic	booster	cisplatin
acyclovir	antipsychotic	boral	clavacin
adenosine arabinoside	antipyretic	boric acid	clemastine fumarate
Adrenalin	antipyrotic	botanical	clindamycin
adrenaline	antiscorbutic	bretylium	Clinoril
Adriamycin	antitussive	broad-spectrum	clofibrate
Advil	APC	bromal	Clomid
agent	apomorphine	bromide	clomiphene
agonist	Apresoline	bromocriptine	clonazepam
Albamycin	aqua	brompheniramine	clonidine
albuterol	ara-C	Brompton mixture	clorazepate
Aldomet	araroba	B.S.P.	cloxacillin
aliquot	Argyrol	bufotenine	cocaine
alkaloid	aromatic spirits of ammonia	bufotoxin	cocktail <sup>1</sup>
alkylating drug	arsphenamine	bupivacaine	codeine
allantoin	asparaginase	busulfan	cohobate
allopurinol	aspirin	butabarbital sodium	colchicine
aloin	assay	Butazolidin	colchicum
alpha blocker	Atabrine	butorphanol	colicin
alpha-interferon	Atarax	butylated hydroxyanisole	colistin
alprazolam	atenolol	butylated hydroxytoluene	colocyth
aluminum glycinat	atropine	butyrophenone	Compazine
amantadine	auranofin	cachet	confection
amikacin	Aureomycin	caffeine	corpus luteum
amiloride	Avertin	calcitriol	cortisol
aminoglutethimide	azathioprine	calcium blocker	cortisone
aminoglycoside	azidothymidine	calomel	Coumadin
aminophylline	AZT	camphor	cromolyn sodium
amiodarone	bacitracin	camphorated oil	cyclandelate
amitriptyline	bactericide	Caplet	cyclazocine
ammonium chloride	Banthine	capsule	cyclizine
amobarbital	barbital	captropril	cycloheximide
amoxicillin	barbitone	carbamazepine	cyclophosphamide
amphetamine	barbiturate	carbenicillin	cyclopropane
amphotericin	batrachotoxin	cardiac glycoside	cyclosporine
ampicillin	BCNU	cardioaccelerator	cyproheptadine
amrinone	bebeerine	cardioactive	cytarabine
amygdalin	beclothemason	carisoprodol	cytosine arabinoside
amyl nitrite	belladonna	carmustine	cytotoxin
Amytal	Benadryl	carron oil	dacarbazine
anethole	Bendectin	cefalor	dactinomycin
Antabuse	Benedict's solution	cefoxitin	Dalkon Shield
antagonist	Benemid	cephalexin	Dalmane
antarthritic	benzamine	cephalosporin	danazol
anthelmintic	Benzedrine	cerate	dantrolene
antianxiety drug	benzenecarboxylic acid	charta	dapsone
antiarrhythmic	benzocaine	chartula	Darvon
antibiotic	benzodiazepine	chloral	Darvon Compound
anticholinergic	benzoic acid	chlorambucil	DDS
anticholinesterase	benzonatate	chloramphenicol	Decadron
anticlotting	benztropine mesylate	chlorcyclizine	Declomycin
anticoagulant	benzyl benzoate	chlordiazepoxide	decoction
antidepressant	berberine	chloroform	decongestant
antidiuretic	beta blocker	Chloromycetin	demeclocycline
antiemetic	Betadine	chloroquine	Demerol
antifebrile	betaine	chlorothiazide	

deoxycorticosterone	emulsion	gonadotropin releasing hormone	Intropin
Depo-Provera	energizer	gramicidin	inunction
deserpidine	enflurane	griseofulvin	investigative new drug
desipramine	ephedrine	G-strophanthin	iodophor
desmopressin acetate	epidural	guaiaacol	ipecac syrup
DET	epinephrine	guanadrel	ipratropium bromide
dexamethasone	Epsom salt	guanethidine	iproniazid
Dexamyl	Equanil	Gynergen	isoamyl nitrite
Dexedrine	ergonovine	halazepam	isocarboxazid
dextran	ergot	Haldol	isoflurane
dextroamphetamine	ergotamine	half-life	isoniazid
diacetylmorphine	ergotin	haloperidol	isonicotinic acid hydrazide
diamorphine	ergotoxine	halothane	isopropyl meprobamate
Diamox	Ergotrate	hard drug	isoproterenol
diazepam	erythritol	heparin	isosorbide dinitrate
diazoxide	Erythrocin	heroin	isosterism
dibucaine	erythromycin	hexamethonium	isotonic sodium chloride solution
dicoumarin	Esidrix	hexylresorcinol	isotretinoin
dicoumarol	estradiol	histaminase	isoxsuprine
dicumarol	estrin	histamine	juniper tar
diethylcarbamazine	estriol	histamine blocker	kainic acid
diethylpropion	estrone	Holocaine	Keflex
diethylstilbestrol	ethacrynic acid	hormone	ketamine
diethyltryptamine	ethambutol	Humulin	ketoconazole
diflunisal	ethchlorvynol	hyaluronidase	labetalol
digestant	ether	hydantoin	Lanoxin
digitalin	ethinamate	hydnocarpic acid	lb. ap.
digitoxin	ethionamide	hydragogue	L-dopa
digoxin	ethosuximide	hydralazine	levodopa
dihydroergotamine	ethyl aminobenzoate	hydrastine	levorphanol
dihydromorphinone	ethylenediaminetetraacetic acid	hydrastinine	Librium
dihydrostreptomycin	ethyl nitrite spirit	hydrochlorothiazide	lidocaine
dihydrotachysterol	etorphine	hydrocortisone	lignocaine
Dilantin	eucaine	HydroDiuril	lime liniment
Dilaudid	eugenol	hydroxychloroquine	lincomycin
diltiazem	eusol	hydroxyurea	liquor
dimenhydrinate	excipient	hydroxyzine	lithium
dimethyltryptamine	exhaust	Hygroton	lobeline
dinitrophenol	expectorant	hyoscine	Lomotil
diphenhydramine	eyewash	hyoscyamine	long-acting
diphenoxylate	Feldene	ibogaine	Loniten
diphenylhydantoin	fenfluramine	ibuprofen	loperamide
dipyridamole	fenoprofen	ichthammol	lorazepam
disopyramide	fen-phen	Ichthyol	lotion
dispense	fentanyl	ICSH	LSD
disulfiram	Feosol	idoxuridine	Luminal
Diuril	ferrous sulfate	IL-2	lysergic acid diethylamide
divinyl ether	fertility drug	Iletin	mafenide
Dobell's solution	flowers of sulfur	Ilotycin	magistral
dopamine	flucytosine	imipramine	magma
Doriden	fluidextract	immunosuppressive	maintenance
Dover's powder	flunitrazepam	Imuran	major tranquilizer
doxepin	fluorouracil	incompatible	mannitol
doxorubicin	fluoxetine hydrochloride	incrassate	mannitol hexanitrate
doxycycline	fluphenazine	IND	marc
Draize test	flurazepam	indapamide	margin of safety
Dramamine	folinic acid	Inderal	Marsilid
droperidol	formic acid	Indocin	mass
1	formulary	indomethacin	masticatory
drug	fructose	inert	MDA
Dyazide	furazolidone	infusion	mebendazole
ecbolic	gallamine triethiodide	INH	mechlorethamine
ED	Gantrisin	inositol	meclizine
50	gentamicin	inscription	medroxyprogesterone
edetate calcium disodium	gentisic acid	insulin	mefenamic acid
edrophonium	gitalin	interferon	Mellaril
EDTA	glutethimide	interleukin 2	mellite
electuary	glyburide	internal	mellitum
elixir	glycerite	international unit	menadione
ellagic acid			
emetine			

menthol	neuroleptanalgesia	phenobarbital	pyrimethamine
meperidine	neuropharmacology	phenolphthalein	Quaalude
meprobamate	niridazole	phenothiazine	quassia
merbromin	nitrofurantoin	phenoxybenzamine	quinacrine
mercaptapurine	nitroglycerin	phentermine	quinestrol
mercurial	nitrosourea	phenolamine	quinidine
Mercurochrome	nitrous oxide	phenylbutazone	quinine
mercurous chloride	Noludar	phenylephrine	quinoidine
mercury	nonoxynol-9	phenylethylbarbituric acid	radiopharmaceutical
mercury mass	nonsteroidal	phenylformic acid	relaxant
